

NEW TENA Comfort PROskin

Value offering for heavier needs

TENA Comfort incontinence pads have been upgraded to PROskin featuring:

- » Range increase from 3 to 6 sku's, including 2 NEW high absorbency levels
- » NEW breathable backsheet to improve skin health
- » Increased number of leg elastics for improved body shape and fit
- » NEW PROskin packaging
- » Updated backsheet print with a more subtle single colour print

To accommodate the extended range we are renaming and changing the absorbency colour of the existing 3 products. Below is a summary of the new range and product changes.
